Dear Sir/Madam,

Hope doing well.

DST is accepting Project Proposals Under Scheduled Caste Sub Plan (SCSP).

The Scheduled Caste Sub Plan (SCSP) Scheme of DST, provides opportunities (in the form of grant-in-aid support) to undertake time-bound action (field) oriented projects with inputs of Science and Technology (S&T) and Research and Development (R&D) projects addressing specific issues of SCs for creation of sustainable livelihoods and their holistic development.

Project Proposals are invited from Faculty/Scientists/Engineers/Technologists/Professionals working in Academic Institutions/R&D Institutions/Laboratories, S&T based Voluntary Organizations (NGOs and Trusts) and other entities eligible for receiving grant in aid from DST as per extant norms for finding affordable and adoptable S&T solutions to solve the problems in their livelihood system, especially in rural areas through application of Science and Technology.

- o To promote research, development and adaptation of technology for sustainable development and improving the quality of life of the economically weaker sections of SCs in urban/rural areas
- o To encourage scientists and technologists to apply their knowledge and expertise to solve the problems of economically weaker SC communities, especially in rural areas
- o To replicate successful technology models relevant to SC population

We can assist in the application process.

Request you for telecon.

Warm Regards,

Ranen
