Dear Sir/Madam,

Hope doing well.

SERB is accepting new proposals for Scientific and Useful Profound Research Advancement (SUPRA) Research Grant.

SERB has developed a scheme SERB-SUPRA (Scientific and Useful Profound Research Advancement) that seeks to explore new scientific breakthroughs, with long-term impact on our fundamental scientific understanding and offer disruptive technologies at the cutting edge.

SERB-SUPRA is a scheme beyond normal core research grants and purposefully designed for high quality proposals consisting of new hypothesis or challenge existing ones and provide "out-of-box" solutions. Transformative and disruptive research concepts based on innovative and unproven hypothesis, possessing a high degree of uncertainty, yet having conviction to produce a lasting impact across discipline boundaries qualify for support under SERB-SUPRA.

Most important measures of this scheme are:

- Quantum of advances (incremental and short terms gains are strongly discouraged).
- Extent of disruption in fundamental understanding or impact on outstanding research grand challenges: new areas, new concepts, new products, new disruptive technologies.
- Ability of research outcomes in enhancing scientific knowledge of the cutting-edge at the international level and/or emergence of critical technologies.
- Global impact, outstanding publications, advancement of science.

Nature and Duration of Support:

- The SUPRA scheme provides research support to an individual researcher or a group of researchers working in a recognized academic institution or national laboratory or in other recognized R & D institutions in India.
- Funding will be provided normally for a period of 3 years, which could be extended to 2 years (5 years total) subject to performance evaluation.
- The research grant is provided for equipment, research personnel, consumables, travel and contingency. "Overheads" is also be provided to the implementing institution as per prevailing norms of SERB.
- National Laboratories and Research Institutions should share 50% of the non-recurring cost of the project. For projects with total cost more than INR 80 lakh, 50% of the non-recurring and consumables cost should be shared by the Lab/Institution. If project is approved for SERB support, a certificate from National Laboratory / Research Institution will be required for the same.

We can assist in the application process.

Request you for telecon.

Warm Regards,

Ranen
